FOREWORD

C. C. Caveny
Executive Dean

It has been said that the only thing that improves by breaking is a record, and this statement is evident in all sporting events. All who enter them, whether they win or lose, enjoy the thrill of competition. The participants may compete against their own previous records, the records of their opponents, or the records of past opponents. Each individual is constantly striving to do his best. Whether it is a small school event or the great Olympic contest that is being held, the most important thing to remember is the adherence to good sportmanship.

Obviously, we cannot all be athletic champions. The great majority lack the ability, and in some instances even the desire to display their physical prowess in great public exhibitions. Yet there is need, as there always has been, for what the philosopher Juvenal defined as "a sound mind in a sound body"—a desirable combination of mental and physical development for the great mass of our youth.

Therefore, I strongly urge each student to take part in the physical education and athletic program of the Chicago Undergraduate Division in order to help develop his own mental and physical happiness.

John O. Jones
Director of Athletics

DIRECTOR'S MESSAGE

The purpose of this handbook is to acquaint you with the Intercollegiate and Intramural Sports Programs here at the Undergraduate Division and to invite you to take part in that phase of the program that will serve you best.

We, here on this campus, are proud of the fine records made by our teams. In some sports we have competed against the best in the country. This past year most of the Western Conference (Big Ten) Universities were on our schedules. The swimming team met and defeated such teams as the University of Kentucky, Georgia Tech, and Vanderbilt on this trip.

The Intramural program, with its wide variety of activities, attracts more than one half the men students into some form of competition each year. Each student can find activities so he may compete with others of equal ability.

The 16 coaches are ready and anxious to help you. Come in, get acquainted, and have some fun.

ATHLETE OF THE YEAR

Jim Peterson was selected as the 1959-60 Athlete of the Year, the highest honor that may be given a UIC athlete. Each year twenty-two nominations for the Athlete of the Year are made by the coaches of the eleven varsity sports at UIC. The UIC students then determine, by vote, five finalists. A final judging committee, composed of the Director of Athletics, Sports Editor of the *Pier Illini*, and representatives from the Physical Education Department and Lettermen's Club, then select one of the finalists as Athlete of the Year.

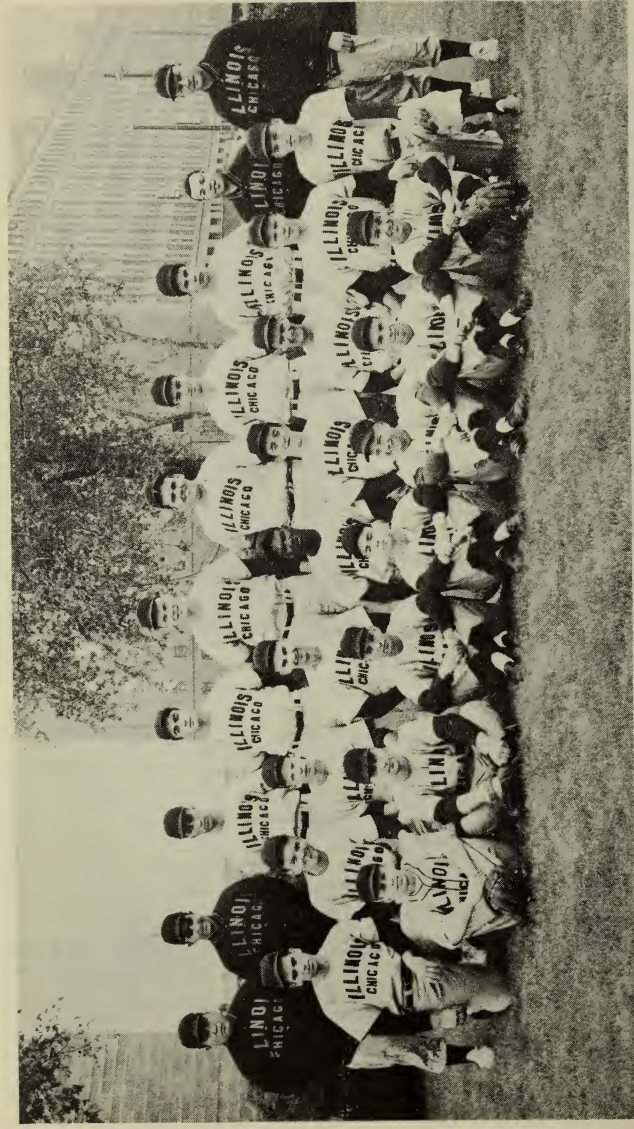

Jim Peterson was selected because of his outstanding performances as a member of the track and cross country teams. His coach, Sheldon Fordham, says Peterson is the finest runner ever to perform at UIC. Peterson captained the track team for two years, was chosen by his teammates as most valuable performer on the track team in 1959 and again in 1960, and was chosen most valuable on the cross country team in 1959. He presently holds the school records for the mile run and two mile run, setting both standards in the 1960 University of Chicago meet. In two years, Peterson has been defeated only three times in the mile and two mile competition.

INTERCOLLEGIATE RULES

Intercollegiate eligibility rules have been established with the idea of assisting UIC athletes to improve their academic standard

1. After each four week period, each student will turn in to the physical education office a report of progress from each of his instructors.
2. If the student is reported as "unsatisfactory," he will have a two week period to improve to a satisfactory level or be removed from his team.
3. A student on academic probation at the start of a semester is ineligible until the end of the fourth week. If his grades are such as to meet the terms of his probation, he is eligible.
4. A student is "unsatisfactory" if the quality of his work will lead to probable failure or if the instructor believes that the student is capable of doing better work.
5. The student must carry at least 12 hours a semester of regular academic work.
6. Any student who has not graduated from a college or university is eligible. He must be an amateur and must not have applied his athletic skills in any professional manner.

The purpose of the Lettermen's Club is to band together those who have earned a varsity letter for the purpose of creating and perpetuating a mutual interest and participation in athletics, scholastic functions, and various university social affairs.

Club Objectives

To encourage and maintain high scholastic standards among athletes.

To promote interest in varsity sports among the student body with support of staff, faculty and students.

To unite varsity award winners in activities of mutual interest.

Pete Berrafato
Director of Intramurals

INTRAMURALS

During the 1959-60 school year, 1328 UIC intramural athletes participated in 52 leagues, tournaments, and meets. The total participation in the various activities amounted to 2477.

The Spring Semester program was high-lighted by a fine inter-class wrestling tournament in which 182 students participated. Two of the classes had 100% participation. Several members of

the wrestling team made outstanding contributions as referees, timers, and scorers. All of the wrestling instructors helped to make the tournament a huge success.

A total of 57 teams competed in the basketball leagues; 24 in the Fall semester and 33 in the Spring semester.

The under 35 (Placement test scores) Developmental Activities classes competed in their own version of the Basic Olympics. 36 men competed in two events; tug-of-war and mile relay.

The Intramural Sports Staff was fortunate in securing the services of Mr. Leo Gedvilas. Mr. Gedvilas has been on the Physical Education Staff for 13 years. We are certain that he will make a fine contribution to the Intramural Sports Program.

The 1960-61 Intramural schedule will include the following activities:

PHYSICAL EDUCATION SERVICE PROGRAM FOR MEN

GUIDANCE PROGRAM

The objectives of guidance is to place students efficiently in classes with regard to their needs, interests and abilities.

The student's score on the Physical Education Placement Test is used to determine the type of activity in which the student may enroll. If the student scores less than 50 on the test, he is required to enroll in Developmental Activities. If he scores between 50 and 65, he may enroll in any of the Limited Choice courses. If he scores 65 or over, he has the opportunity to enroll in any course he desires.

If the student has some handicap or disability, he does not take the Physical Education Placement Test, but is placed in a Prescribed Exercise class where he engages in activities of a remedial nature.

All of the physical education service courses are divided into four main areas: gymnastics, developmental activities, combatives, and recreational sports. A student is requested to take no more than two courses in any one area, thereby making it possible for him to obtain variety in physical education activities.

Students with no experience in recreational activities during their first three semesters are required to enroll in a recreational activity during their final semester in physical education.

USE OF FACILITIES

All students participating in a physical education course or other gym activity may obtain a basket, towel, and lock from the equipment room. There is no deposit for these items; however, any loss or damage will be charged to the student's general deposit fee.

AVAILABLE FACILITIES

Following is a list of available gym facilities: apparatus equipment, pulley weights, climbing ropes, stall bars, table tennis tables, lifting weights, tumbling and wrestling mats, and badminton, basketball and volleyball courts.

EQUIPMENT ISSUED

Students may secure the following for use in the gym: volleyball nets and standards, striking bags, boxing gloves, badminton standards and nets, table tennis nets, paddles.

ACADEMIC AND NON-ACADEMIC PERSONNEL

University academic and non-academic personnel are invited to participate. A two dollar fee is required per semester for towel use, etc. Everyone is invited to use the gym whenever there are no classes scheduled. During each semester, certain hours each week are set aside for CO-RECREATIONAL activities. Gym facilities are granted for general participation.

COLLEGE OF PHYSICAL EDUCATION

The Chicago Undergraduate Division offers the first two years of a four year program for men leading to a Bachelor of Science degree in Physical Education. Students desiring to take work in Health Education or Recreation may take at least one year of work at this Division. There is no loss of credit upon transferring to Urbana after two years of work in Chicago. The academic record made by students who have transferred to the Urbana campus has been outstanding and many of these persons are now in teaching and coaching positions in Chicago and in the suburban area. An Annual Award is made to the Outstanding Sophomore Physical Education Major student based upon scholarship, leadership ability and participation in extracurricular activities.
